Kayeigorma Company Limited

AN INITIATIVE SUPPORTED BY THE GOVERNMENT OF SIERRA LEONE'S RURAL AND PRIVATE SECTOR DEVELOPMENT PROJECT FINANCED BY THE WORLD BANK UNDER THE INTERNATIONAL DEVELOPMENT ASSOCIATION (IDA) FUNDING FOR LOWEST INCOME COUNTRIES

KCL ACTIVITIES IN PICTURES

2nd container from MAERSK is normal and we didn't did find any hole on the surface of container.

Our customer took the sample and checked the quality.
The evaluation for Sierra beans is very good and every aspects are within their standard to receive into their factory.

Evaluation for KCL cacao !!

Dear Mr. Kwabena and Mr. Usif

We hope this e-mail find you are doing well.
Now I'm in Malaysia and have just discussed the quality of your cacao with our Malaysian customer.

Firstly, our customer took some photo pictures when they received the container.
We had problem for the quality of 20FT container itself from SEFMARINE and 2nd 40FT Container is normal quality under Maersk container.

As regards with the quality of cacao beans, they are fully satisfied with high quality beans Because they are well fermented, dried and don't contain much dust or foreign material.
We also have confirmed the weight of load is very accurate and will arrange the balance of payment as soon as possible.

We felt our quality is much better than their expectation and we are sure we can keep and expand our sales to them.

We are very interested in having relationship with KCL and three farmers association and all members.

We would like to support and develop our mutual beneficial business with you.
Please tell our appreciation and customer reactions to farmers.
We believe keeping the high and stable quality cacao beans makes the expansion of the future business.

As soon as possible, we would like to visit at you again and talk about new crop business and future plan.
Thanks & best regards
